### PRODUCT DESCRIPTION

This is a one-owner DS-600 in the original butter-soft smooth black leather. This is a 40-year-old sofa imported into the states from De Sede of Switzerland by Stendig. The design is flexible enough to change it into a number of different configurations. The leather is original and is remarkably clean for a piece of this vintage. The foam is still extremely resilient.

seat height 17"

C.1972

Very good original condition.
