### PRODUCT DESCRIPTION

#### Edward Wormley Expandable Coffee Table

Edward Wormley designed coffee table produced by Dunbar. Solid Mahogany construction, professionally restored with the appropriate satin espresso finish. The functionality of this piece is very imaginative and the way in which the internally hidden expansions effortlessly glide up and out and lock into place is quite efficient. A solid minimalist design with a little more than meets the eye to offer its new owner. Each leaf measures 12" which extends the table to 68". Signed with manufacturers marking on underside.
