PRODUCT DESCRIPTION

We have two pairs available. The list price is for one pair.

Designed by Centro Ricerche Giorgetti. The "Peggy" Armchairs are the most exquisite form in the Progetti Series developed in 1996. These chairs are from an important private collection and have been very well preserved. They are upholstered in the original chocolate brown leather and the down-filled back cushions are very comfortable and resilient. The armrests are crafted from Pau Ferro and the legs from Beechwood.

Seat Height: 17 in

1996
