PRODUCT DESCRIPTION

The price is for the set of 3. Beautifully crafted set of three studio-made free edge tables commissioned by an important Dallas Collector and bench-made by locally renowned San Antonio woodworker John David Sackett from regionally sourced timber.

A truly unique design that is reminiscent of the work of both Vladimir Kagan and George Nakashima. The trio of tables are all similar in size. The largest one measures: W: 22" D: 22" H: 21½".

Good condition.

The matching bench shown in the last image is available separately.
