### PRODUCT DESCRIPTION

This pair is a rare example of the low-rolling side tables model #6022T designed by Joseph D'Urso for Knoll in 1981.

The tables are in excellent condition in a rare factory-ordered tomato red finish over stainless steel with the original wire safety glass tops.

These tables are very substantial but are easily moved throughout the room with the recessed casters.

The matching coffee table model 6048T is available separately.
