PRODUCT DESCRIPTION

Mid-century modern Ballerina 12 lamp chandelier designed by Paavo Tynell.

Extraordinary Paavo Tynell Ballerina Chandelier was designed in the 1960s and produced by Lightolier for the American market. Consists of 12 perforated spun aluminum shades in the original flat beige lacquered finish. Elegant from every angle.

The height of the mid-century modern fixture to the finial at the bottom of the down rod measures about 14" and the down rod itself measures about 36". The drop can be adjusted to suit your needs by our local technician for a slight surcharge.

Very good original condition. Some light patina to the down rod.
