PRODUCT DESCRIPTION

Mid-century modern Chest of Drawers 'Station Wagon Series', Paul Frankl, Mahogany Maple & Leather

Cabinet constructed of Philippine mahogany and rock maple featuring 6 drawers with original hand-stitched leather handles attached with solid brass hardware. The interiors of the drawers are oak. Manufactured by the Johnson Furniture company in 1950. This mid-century modern design would look right at home in the Hermes store or even in a Ralph Lauren mountain ranch house.

Refinished. Very good condition. Some wear to the leather consistent with age and normal use.
