PRODUCT DESCRIPTION

This custom-ordered angular "Double Diamond" coffee table by Harvey Probbler was made in the 1960s. It was built to complement the coordinating Probbler "Nuclear Sert" sofa that we have available in a separate listing. It was acquired from a prominent NY estate that was featured in a New York Times article in the 1960s showcasing their collection which also included pieces by Philip & Kelvin Laverne and Paavo Tynell. It is an extraordinary coffee table and is built to last a lifetime.
